

THE TIGHT JANS + 2

With a loud knock the marble collides with the wooden walls of the marble maze while it tries to find it's way out. The way to freedom.

The six musicians that form the Tight Jans + 2, roll like that marble in the marble maze. A unit, a ball that moves in free fall. The voice, the live electronics and the acoustic instruments contrast each other and fall back in harmony. They slow down at the corners, when the maze is tilted, the music pauses and creates a landscape of sound. The free fall again! A knock! Banging against the wooden walls the band finds it's way out of the maze.

The Tight Jans +2, popped out of the brain of drummer Tijn Jans. January 2014, they released their first EP Reuze Reuze on TryTone Records.
